Graduate Diploma in Project Management	✔	✔		✔	✔	✔		✔			

You do not need to purchase these programmes prior to starting your study. You will be advised by your lecturers how you can access these when you start.

You will need to **bring your own laptop**. We recommend a device capable of running Microsoft based software. The exact system requirements should be based on the heaviest software you will need to run for your chosen programme of study. Computer retailers will be able to advise a suitable device for your requirements.
